These well-cushioned seats provide adjustable heating and cooling controls both on the side of the seat, as well as through the Ride Command display. Enjoy a heated seat when the weather turns cool, and experience a cooling, comfortable seat that minimizes sweating and discomfort during warm-weather riding. Thermoelectric technology to cool or heat the seat combined with flexible Graphene material to help disperse that feeling to the most needed areas of the seat. These seats have a durable vinyl cover that is water-resistant and UV-resistant, easy to clean to maintain its showroom appearance. The 13.7 In. Flare Windshield will give your bike a style boost while the 11.3 In. Windscreen will give your Chieftain a more low-profile look. For riders looking for wind protection, a windshield that stops shortly

below eye level will prevent you from looking through bug splatter, while directing air over your head. For touring riders, we recommend the 21 In. Touring Windshield.
